\* These Volumes are now being produced in 2-ounce miniatures for Home and Export

The "SPIRIT OF THE COUNTRY" series of fine wines and spirits is a real best cellar. Once displayed, this handsome collection of volumes will sell on sight. And that's not fiction! Artistically finished in contemporary colours, these 'volumes' decorate the home and take the place of a cocktail cabinet. These classics in pottery are of far greater distinction than the most attractive glass bottles. Orders accepted for minimum quantities of one case per brand. 12 or 15 books of one spirit. Mixed cases cannot be shipped.
